CRAFTED & TUNED TO PERFECTION

CONSOLIDATED  
OUTLAND

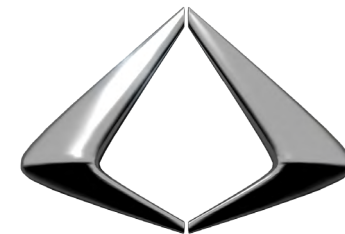

## Redefine What it Means to Travel the Stars

It is my great pleasure to introduce you to a ship so advanced that it will set the benchmark for innovation and excellence. With a unique metamaterial body structure and precisely calculated weight distribution, the all new Mustang offers responsiveness and agility while providing a ride quality beyond all my expectations. Whether you are running errands, tearing up the racetrack, or holding the line, we at Consolidated Outland are determined to lead the way in ship manufacturing. With so many options designed to best fit your lifestyle, wherever life sends you, there's a Mustang to get you there.

Welcome along for the ride.

*Silas Koerner*  
CEO & Founder, Consolidated Outland

YOUR EVERYDAY SHIP . . . BUT SO MUCH MORE

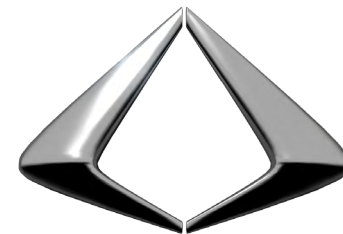

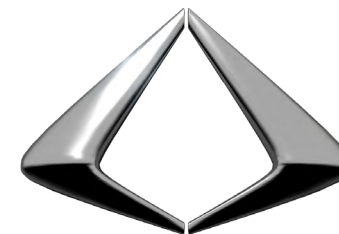

## AN EVOLUTION IN AEROSPACE ENGINEERING

Using patented ultralight material alloys developed by researchers at Consolidate Outland, the Mustang is able to push power ratios to the very limit. The result is a sleek, stylish spacecraft that weighs less than any other ship in its class and delivers exhilarating performance. And now, with the optional Cargo Carrier, you can enjoy all of the Mustang's advances without sacrificing carrying capacity. Not only will the Mustang take you where you want to go, the Cargo Carrier will allow you to take along a whole lot more.

# MUSTANG ALPHA

Base Parameters	Alpha
Role	Starter
Manufacturer	Consolidated Outland
Max Crew	1
Mass (kg)	13,500
Cargo Capacity (freight units)	0 (45 with optional cargo carrier)
Dimensions	
Length / Beam / Height (m)	18 / 13 / 5.5
Power Plant, Engines, Thrusters & Shield	
Factory Power Plant	Juno Starwerk Endurance-600 (Size 2)
Max Power Plant	Size 3
Factory Engines	2x Consolidated Outland Magma Jet (TR2)
Max Engines (Primary Thrusters)	2x TR2
Maneuvering Thrusters	8x Hydra M1-16 (TR1)
Factory Shield	Seal Corp INK-1 (Size 1 Bubble)
Max Shield	Size 2
Cooling System	Consolidated Outland Icebox P
Weaponry	
Class 1 Hardpoints	2x Size 2 (sides)
Class 1 Equipment	(none equipped)
Class 4 Hardpoint	1x Size 1 (under-cockpit twin-mounted turret)
Class 4 Equipment	2x M3A Laser Cannon (Size 1)

A futuristic blue and yellow spaceship is shown in flight, viewed from a high angle. The ship has a complex, angular design with multiple wings and a central body. It is flying over a planet with a green and brown surface, and a vibrant rainbow is visible in the sky. In the background, a large, dark, industrial structure is partially visible. The overall scene is set against a bright, hazy sky.

EXPLORE THE FARTHEST REACHES

# A PILOT'S SHIP

The Mustang was built from the ground up with the understanding that achieving true synergy between Human and Machine, between thought and action, was what would separate Consolidated Outland's inaugural effort from every ship that had come before. Combining meticulous engineering with uniquely advanced ergonomic design, the Mustang cockpit connects the pilot seamlessly to the journey through precision feedback, while remaining comfortable and responsive even at top speeds. Effortlessly integrating throttle, navigation, communications, and weapon control, the digital instrument cluster will leave you wondering how you ever flew with anything else.

## GO BEYOND EXPECTATIONS

The Mustang Beta, with its unprecedented range and thrilling pilot experience, is made for long duration flights. While the Beta's Tarsus Leaper jump engine will take you the galaxy's farthest systems, the ship's Com4T living quarters will make it seem like you never left home. Moving away from the "Human Cargo" style quarters that most manufacturers seem to think is good enough, the Beta proves that an efficient habitat can also be a comfortable. You won't just be passing time with your Com4T bed, kitchen and hygiene center, you'll be enjoying it.

## BETA

### Base Parameters

### Beta

Role	Touring/Exploration
Manufacturer	Consolidated Outland
Max Crew	1
Mass (kg)	17,000
Cargo Capacity (freight units)	0

### Dimensions

Length / Beam / Height (m)	18 / 13 / 5.5
----------------------------	---------------

### Power Plant, Engines, Thrusters & Shields

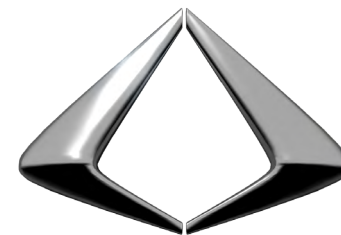

Factory Power Plant	Juno Starwerk Endurance-600 (Size 2)
Max Power Plant	Size 3
Factory Engines	2x Consolidated Outland Magma Jet (TR2)
Max Engines (Primary Thrusters)	2x TR2
Maneuvering Thrusters	8x Hydra M1-16 (TR1)
Factory Shield	Seal Corp INK-1 (Size 1 Bubble)
Max Shield	Size 2
Cooling System	Consolidated Outland Icebox P

### Weaponry

Class 1 Hardpoints	2x Size 2 (sides)
Class 1 Equipment	2x Behring CF-007 Bulldog Repeater (Size 1)
Class 4 Hardpoint	1x Size 1 (under-cockpit twin-mounted turret)
Class 4 Equipment	2x M3A Laser Cannon (Size 1)

### Additional Equipment

Tarsus Leaper Jump Engine

# RACE ON THE CUTTING EDGE

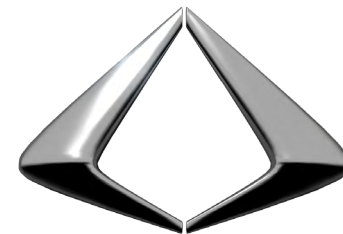

## AHEAD OF THE PACK

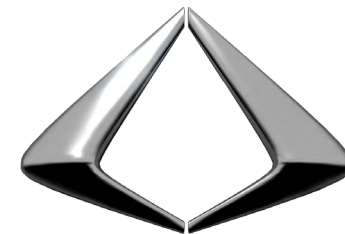

Consolidated Outland's design and engineering teams have gone to extraordinary lengths to ensure that the Mustang moves as good as it looks. As a result, the Gamma's acceleration is instantaneous, powerful and smooth. Unhindered by the restraints of traditional thinking, we were able to reimagine the possibilities concerning thruster balance and efficiency. Underneath the graceful lines of the Gamma is an innovative package featuring an Icebox P cooling system for optimal heat control, and three powerful Consolidated Outland Magma Jet engines for maximum thrust. If getting there's half the fun, than the other half's getting there first in a Mustang Gamma.

# MUSTANG GAMMA

Base Parameters	Gamma
Role	Racer
Manufacturer	Consolidated Outland
Max Crew	1
Mass (kg)	13,000
Cargo Capacity (freight units)	0
Dimensions

Factory Shield	Seal Corp INK-1 (Size 1 Bubble)
Max Shield	Size 2
Cooling System	Consolidated Outland Icebox P
Weaponry	
Class 1 Hardpoints	2x Size 2 (sides)
Class 1 Equipment	2x Behring M3A Laser Cannon (Size 1)

PROTECT WHAT YOU LOVE

## MASS REDUCTION ARMOR

### READY

In a universe as vast and wonderful as ours, anything can happen, and it pays to be ready for anything. We wanted to ensure two things with the design of the Mustang Delta: that any conflict would be over as soon as possible, and more importantly, that the Delta would be the ship left flying. By reinforcing the Mustang's already strong hull construction with Mass Reduction Armor you are not only able to withstand engagements for longer, but you are also able to avoid direct assaults altogether, thanks to the ship's reduced cross-sectional signature.

## CF-117 BADGER REPEATER

### AIM

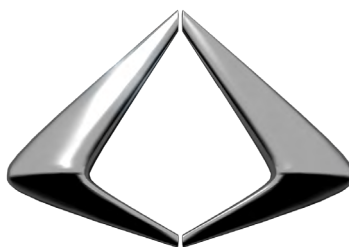

To bring conflicts to a swift conclusion, the Delta comes equipped with a bite as fierce as its bark. Armed with Klaus & Wener's tried and true CF-117 Badger Laser Repeater and a twin mounted Behring M3A Laser Cannon turret, the Delta lets you target combatants with all the confidence that comes from having a ship as well-armed as it is well designed. Who said a fight has to be fair?

## BEHRING R-18 PODS

### FIRE

For full comprehensive protection, Consolidated Outland upped the ante even further by making twin Behring R-18 Rocket Pods standard on every Mustang Delta constructed. A trusted name in weapons, Behring's proven and tested missile systems are a natural fit for the Delta's sleek ruggedness and dogged resilience. Whatever you face, the Delta is ready to meet the challenge head on.

DISCOVER SOMETHING  
TRULY SPECIAL

## ACCELERATED MASS DESIGN

If the soul of every Mustang is performance, then what better partner to bring that vision to life than Accelerated Mass Design? Known for their custom tuning, AMD has time and again proven themselves able to bring out the best in any craft they get their hands on. You can imagine how eager we were to hand over a Mustang and see them make the best even better. The result? Consolidated Outland's Special Edition Mustang Omega. Tuned to perform in ways never expected, the Omega has the Mustang's nimble reflexes at every turn, but with a little something extra. Whether you're accelerating off the line, or zooming along winding tracks, the Omega's additional fuel intake allows for extra boost when you need it most. Wrap it all up in a custom paint job by AMD's own resident artist Sektor8 and you have a ship that everyone wants, but that only a few lucky people will own.
